

* A Snowy day in *
* Leominster *

Beautiful, shiny, transparent icicles going POP, BAM, SNAP and when they descend they go crack. Icicles are as sharp as pointy needles hanging from the Priory Church. Melting snow was slippery and sliding on the slides at Grange Park. Puffy little snowflakes floated down gently and sat on your calm shoulder. At Easter's Wood snowy barn owls peek their small heads through big holes in tall, hollow, brown trees.

Lovely Leominster is a beautiful Landscape!!
